

Templar - Cabinet Pull Handles

- Full hardware suite available
- Designed & manufactured in New Zealand
- Solid brass construction

Code	Centres	Width	Pillar	Projection
5428	192, 224, 320	16	10	36.5

Note if larger pulls or centers are required for cabinet pulls, our standard pull handle ranges can be back fixed as an alternative.

Ordering

Specify cabinet pull handle **Centres** at time of ordering. i.e **5428 - 320** (for 320mm pull handle centres)
Please advise thickness of door at time of order

Mounting Information

Cabinet pulls handles are back fixed with M5 threaded Pan Head Screws

Finishes

Available in an extensive range of finishes, visit the **Finishes** section for more information.

Chant products are hand finished so minor size and finish variations can occur.
