

USA Deadbolt Escutcheons (Trim only)

This escutcheon design is for use on doors with a $38\phi(1\frac{1}{2})$ through the door not $(2\frac{1}{8})$

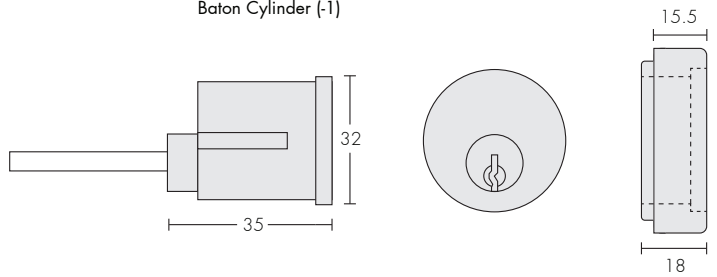

These escutcheons are designed to suit two types of round Deadbolt Cylinders. The code number suffix denotes the type of cylinder, e.g.

3699-1 Baton cylinder - $1\frac{1}{4}$ " (32mm)

3699-2 Baldwin cylinder - $1\frac{3}{8}$ " (35mm)

(Cylinder and bolt not included)

Baton Cylinder (-1)

Baldwin Cylinder (-2)
